

Cirkel

$O = \text{Omkreds}$

$A = \text{Areal}$

$r = \text{radius}$

$d = \text{diameter}$

Radius og diameter

$$r = \frac{d}{2}$$

$$r = \frac{O}{2 \cdot \pi}$$

$$r = \sqrt{\frac{A}{\pi}}$$

$$d = 2 \cdot r$$

Omkreds og Areal

$$O = 2 \cdot r \cdot \pi$$

$$A = r^2 \cdot \pi$$
